

# URETHANE MOLDING

Sur-Seal supplies OEM and customer-specification urethane products to all industries. We assist you with design and material selection, or we work from your blueprints. Our expert engineering and manufacturing skills make Sur-Seal your one-stop source for any urethane molding projects.

## Key capabilities

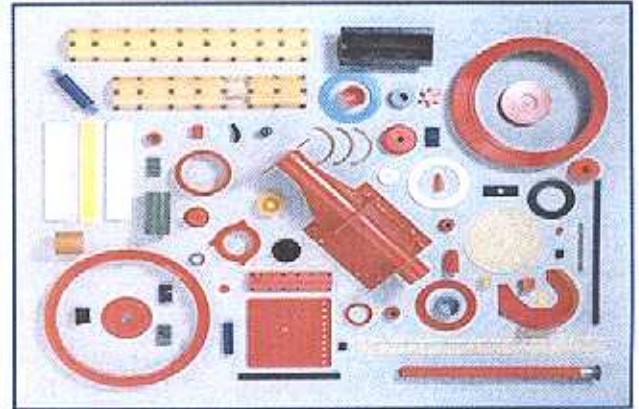

- Roller coverings and precision grinding
- CNC machining of urethane
- Prototype thru production volumes
- In-house mold design and building
- Low-cost tools, fast turn around
- Compression molding
- Open casting
- Extrusions
- Bonding to steel and aluminum

## Special urethane properties

- Wide hardness range
- Extensive color range
- Abrasion resistance
- Impact resistance
- Noise reduction
- High load-bearing capacity
- Custom formulations

## Global sourcing

We partner with global manufacturers to provide the most competitive pricing for large-volume parts. Sur-Seal supports this pricing with effective stocking programs and domestic capabilities to assure uninterrupted supply of your parts. Try us!
