FLOOR CARE

"In our industry, we need a partner who can manage all phases of the product development cycle, from concept to market, and who has access to the latest materials and technologies to support them. Kent has proven to be a great resource for us over the years."

– Engineering Director, major medical device manufacturer

MEDICAL

At SUR-SEAL, we can help you produce wound dressings, cosmeceutical pads, scar therapy patches, OTC accessories, surgical tapes and drapes, ostomy devices and medical device components such as EMI/RFI shields, gaskets and filters, just to name a few.
